## *The Defense Certificate of Recognition for Acquisition Innovation*

**Presented to**

**The Active Performance Management Pilot Implementation Team  
Assistant Deputy Under Secretary of Defense, Transportation Policy**

The Active Performance Management Pilot Implementation Team, Office of the Assistant Deputy Under Secretary of Defense for Transportation Policy leveraged and integrated best business practices with commercial off-the shelf technology into DoD systems to enable faster delivery of materiel to the Combatant Commands thereby achieving best value supply chain management. By using an on-line event management tool and innovative business processes, cargo delivery time was substantially improved by 33 percent. A critical component of the acquisition lifecycle is timely and accurate delivery of acquired materiel in support of defense missions. The Active Performance Management Pilot Implementation Team proved that the aggregation of information from multiple systems and across multiple organizations is not only possible, but necessary for users to effectively collaborate and consistently make informed decisions that keep critical supplies moving through the distribution chain.
